

LOOKING FOR A FUN BACKYARD DIY GAME?

This classic DIY Ring Toss project is easy to make and entertaining for parents and kids. With just a few materials, three Worx tools and some creativity, you'll have a fun game the whole family can enjoy.

STEPS

1. Lay a tape measure across the circle and mark the center point at 12".
2. Lightly sketch the largest square possible around the center point that touches 4 edges of the circle.
3. From each corner, make a mark approx 2" in toward the center point.
4. You should have 5 points marked out. Next you will insert the 1" paddle bit into the drill and drill about 3/4" of the way through each point. (FIG.A)

5. With your Axis, measure and cut 5 pieces at 18". (FIG.B)

6. Paint the board and round dowels or leave as is.
7. Insert dowels into the pre-drilled holes. Use glue for additional support if desired or if the fit is too loose. (FIG.C)

RECOMMENDED MATERIALS

- (1) 24" round pine board
- (3) 1x48" round dowels
- Wood glue

TOOLS

- 20V Axis 2-in-1 Cordless Reciprocating & Jigsaw (WX550L)
